ANOTHER WINO

She was just another "wino."
A "wino" is a person with a pathologic addiction to the cheap wine on sale in every corner grocery. The wine's attraction is its price. There is no cheaper way to stay drunk.

You will find winos in the poorest sections of any city or town. I visited her home some time ago. She is the mother of three bright children, and is called at a neighbor's request. The neighbor had read a "Parents' Corner" article about an alcoholic father and she hoped to find some way to help this woman and her children. The home was a ramshackle store building, and before I knocked I sighed and thought, "Here's another wino."

But I found out I had known this woman years ago when she was a high school student. I still could see faded traces of her former child attractiveness in her thin face. Her hair used to be a shiny black, like patent leather, and she used to wear it in a gay little page boy bob. Now it is long, prematurely gray, stringy and tangled. Her large dark eyes used to flit mischievously from the boys across the aisle. Now they stare blankly ahead, reflecting her own subconscious desire for oblivion.

She wore an old housecoat and was barefooted. She was in her usual state of partial inebriation. The youngest child kept climbing over her while she talked and the older ones stood shyly behind her. Having known her in the days of her youth and glory, I found it hard to hide my astonishment at her present misery.

She had three problems, all growing out of her alcoholism. Her husband had left some months ago and now she was out of money. Her children, she knew, needed more care than she could give them. And her own health was failing. She feared she had tuberculosis.

As she talked, her control gave way and she wept bitterly, her sobs interspersed with a racking cough.

After she quieted down she felt better. She still had enough spirit left to help to get her children placed in good homes, and she was able to suggest where her husband might be. She said repeatedly and sincerely, she would be ready to die in peace if she knew her children were cared for.

Several private and one public welfare agency came to the rescue. The children are now in good foster-homes, and the father is paying for their care. The mother, poor Mommie and show it, but they are getting good food, are kept clean, have regular hours of sleep, and are better off than they have ever been.

She is in a hospital; she was right about being tubercular. Years of undernourishment, years of worry, and her health so greatly that she may never recover.

Another wino—yes, just another wino.

Maybe it is time for us to face the problem of the alcoholic in America, particularly the problem of alcoholic parents. Maybe it is time for us who are trying to help the victims have been too quiet about it. Maybe it is time for us to tell America about the magnitude of the problem.

Some solutions are needed, urgently.

Hospital Planned

Cities concerned in the formation of a Peninsula Hospital District should be responsible for underwriting the proposed hospital. The county board of supervisors decided at its meeting late Tuesday.

The matter of the formation of such a district, similar to the Sequoia Hospital District formed here last year, was brought before the supervisors by County Clerk William H. Augustus.

Augustus said the board who would be responsible for the costs of such an election, pointing out that on the basis of the Sequoia cost, it would be about \$5000 or \$6000.

The proposed district is to include cities from San Mateo to San Bruno, roughly the same area as in the San Mateo High School District. Augustus also said that about 5000 names are needed to qualify the petition for election. He declared that the cost of the election should be borne by the cities.

Chmn. Alvin S. Hatch agreed, pointing out that Redwood City underwrote the Sequoia Hospital District election.

The board planned to discuss the matter over with Luther Carr, Burlingame attorney who is chairman for the steering committee seeking the creation of the hospital district.

Births

To Mr. and Mrs. John Fischer, 526 Scott Ave., Redwood City, a son was born in Palo Alto Hospital on May 28.

To Mr. and Mrs. Elmer E. Keith, 1365 Walnut Ave., San Carlos, a daughter was born in Mills Memorial Hospital on May 28.

To Mr. and Mrs. James Carpenter, 430 Nimitz Ave., Redwood City, a daughter was born in Palo Alto Hospital on May 30.

To Mr. and Mrs. John I. Shipley, 970 Montgomery St., San Carlos, a son was born in Mills Memorial Hospital on May 30.

To Mr. and Mrs. J. L. Perry, 3334 Page Ave., Redwood City, a daughter was born in Mills Memorial Hospital on May 30.

To Mr. and Mrs. Edward Moore, 108 Linden St., Redwood City, a son was born in Community Hospital on May 31.

Gambling Trial

Three men arrested by Redwood City police on charges of operating gambling establishments have been bound over to superior court for trial by Police Judge W. H. Thorpe. Attorney Harold Anderson, former city councilman representing two of the defendants, requested that preliminary hearings into their cases be waived. Chief Dep. Dist. Atty. S. Whitmore and Judge Thorpe agreed to this move, following which Thorpe ordered that they be held to answer in trial before superior court.

The two represented by Anderson are Sidney Cooper, 51, 12 King St., a clerk at the Super Smoke Shop, 2604 Broadway, and Harold J. Milne, 25, 34 Center St., a clerk at the Premier Smoke Shop, 2074 Broadway.

They had been arrested by Sgt. E. G. Fogarty and S. E. Douglas on Apr. 30 and had been free since then on \$250 bail each.

The other defendant is Harry Schwartz, 42, 2404 Broadway, and Harold J. Milne, 25, 34 Center St., a clerk at the Premier Smoke Shop, 2074 Broadway.

Judge Thorpe held his court in session most of Tuesday morning and afternoon as Whitmore and Defense Atty. Gerard Wagstaff argued whether Schwartz should be held to answer.

The two police sergeants had testified they had obtained scratch sheets and cards at the smoke shop which Frank Marlowe, criminal investigator in the district attorney's office, testified were the kind used by gamblers.

Whitmore said Wednesday that Sergeant Douglas also gave testimony which indicated that Schwartz had admitted operating a horse book.

The hearing on Schwartz took place Tuesday at a scheduled preliminary hearing. Another man charged with operating a gambling establishment was postponed by Thorpe until June 10 at 2 p.m. The other defendant is Harry Schwartz, 42, 2404 Broadway, and Harold J. Milne, 25, 34 Center St., a clerk at the Premier Smoke Shop, 2074 Broadway.

Whitmore introduced 15 different exhibits during the Schwartz hearing. Included in the exhibits were a scratch sheet printed in San Francisco, loose leaf note books and cards marked with numerals and names.

During the hearing Wagstaff pointed out that the scratch sheet was on sale at most public newsstands.

He also indicated that a bankbook was taken from Schwartz' coat rather than from a rear office desk as Sergeant Douglas said.

Visit Hospital

Fifty delegates to the national AWWVS convention in San Francisco visited the U. S. Veterans' Hospital in North Palo Alto Friday. Among them were Mrs. Ogen Mills, national president and wife of the late Secretary of the treasury.

Mrs. Mills expressed her satisfaction with AWWVS work at the local hospital. "California and New York have long been the leading states in our organization. For a while California was far ahead, but New York is catching up," Mrs. Mills said.

Two delegates from New York, Mrs. Manuel Fischer and Mrs. Warren P. Purdy, reported that one of the things that brought them to the national convention was the opportunity to visit "The Haven."

"Now that we've seen it we may be able to set our hospital managers in New York on the idea," they said.

Chang delegates included Mrs. T. K. Chang, wife of the Chinese consul-general in San Francisco and member of the AWWVS state board of directors. Mrs. Ernest P. Gimbel, national vice president.

Buy Site

A modern shoe store costing about \$200,000 is planned at the site of the present California Pacific Title Insurance Co. building at Broadway and Hamilton St.

Sale of the property for about \$150,000 was announced Tuesday by Coldwell Banker & Co., San Francisco, agents in the sale.

E. W. Arnold of the real estate firm declared that the property recently purchased by Mr. and Mrs. Irving Kay, was sold to the Alsai Co. and by it to Edison Bros. St. Louis shoe manufacturing firm.

The firm has national three shoe chain stores carrying Lechis, Chandeliers and Burts shoes.

The firm plans to remodel the California Pacific building at a cost of \$50,000, Arnold said.

The shoe store plans to start remodeling within a year, after title company moves to the new building which it will erect on the old Fitzpatrick property on Broadway.

New Tax Suit

Another suit to recover taxes was filed in superior court Tuesday by Western Pacific Steel Co. of California against San Mateo County and the city of South San Francisco.

The suit seeks a judgment for \$316.62 paid in taxes, which the steel company charges were unconstitutional and paid under protest.

The firm claims that it is leasing the South San Francisco plant from the U. S. Maritime Service, that the plant is federal property, and that under the constitution cannot be taxed by a county or municipality.

Discuss Bonds

At the public forum held Tuesday night by the San Carlos Community Club arguments were aired by members for and against the proposed bond issues to be voted on next week. This was after the 40 persons in the auditorium of the city hall heard representatives of the city council and the city manager explain the measures.

Fred Drake, head of a citizens committee appointed by the mayor, gave the history of San Carlos from when the city hall was a schoolhouse. He called civil service "the golden rule."

Councilman Truman S. Waterman, said civil service would free the city employees from politicians and he threatened independent council action if the sewage disposal plant issue failed.

Councilman James H. Kemp Jr. showed a blueprint of the proposed remodeling of the city hall, and Warren Hayden, recreation director, told of recreational facilities which he considered inadequate and gave a picture of what he would like.

In his talk, Drake explained that a new city hall was being planned by the city council before Pearl Harbor when land was bought for this purpose and the general sentiment last night still seemed to be for this without expending \$90,000 for remodeling the old structure.

Mrs. Harry W. Mahany suggested, instead of enlarging quarters in the auditorium, that arrangements be made outside for this, thus leaving space enough for offices. She said she had talked to the county librarian who approved of a building where county funds for renting.

The blueprint of the remodeling indicated that while the stage of the auditorium would remain, heavy council chamber furniture would be replaced below. Waterman also emphasized the fact that when any new building was a social club would have to give way.

Arguments against civil service maintained that a commission appointed by the council did not make the auditorium free and that the people had no protection against incompetence. Also it was questioned if the salary scale was so high it would be a hardship in a depression.

The pros and cons of a volunteer and paid fire department were debated between Waterman and Mr. Hosmer, former councilman. Hosmer claimed the volunteers were the last remnants of the San Carlos spirit. "What can I do for San Carlos, not what can I do for me."

News Told

The engagement of Rosalie Carrington to Joe E. Maninat was announced Memorial Day at the Carrington cabin in the Santa Cruz Mountains.

Besides the members of the immediate family, Mrs. Sophie Nobs, Rosalie's aunt of Los Angeles, and Mrs. Robert Swan and her daughter, Arvia, of Hollywood were present.

The news was announced also to a group of teachers at the Carrington home at 800 Whipple Ave. This is the second engagement in the Carrington family in one week as Elsie Carrington, daughter of the late Carringtons, announced their engagement last Sunday at the cabin.

Rosalie, daughter of Mr. and Mrs. O. M. Carrington, a graduate of the Sequoia High School and the College of the Pacific, is teaching music in the Redwood City elementary schools at the present time.

Joe, son of the late Bertrand Maninat and the late Mrs. Cleo Brown, graduated from Sequoia High School before serving overseas with the Navy in the Aleutian Islands and the Pacific for three years. He is employed now in San Francisco.

No definite date has been announced for the wedding.

News Told

Newly affianced are Carolyn Anne McGarrigle of La Honda and Edwin Williams Rice of Redwood City. The engagement was announced by Carolyn's mother, Mrs. William S. Grey.

The bride-elect is the sister of Lt. Col. Charles A. McGarrigle and Mrs. William L. McGarrigle of San Francisco. She attended Lowell High School in San Francisco and now is employed with the Redwood City Tribune.

The prospective bridegroom is the son of Mrs. Anna Rice of this city. He is the brother of the Misses Helen M. and Mary C. Rice of San Francisco. Mr. Don Rice of Helena, Mont., Mr. Frank K. Rice and Miss Elizabeth Ann Rice of Redwood City.

Edwin graduated from Sequoia High School and is attending San Mateo Junior College. He served 3 1/2 years in the navy as a pharmacist's mate in Key West, Fla.

The wedding will take place in August although the definite date has not been set.

Anniversary Celebrated

Italian Catholic Federation, Branch 6, of this city celebrated its 25th anniversary of its inauguration Saturday evening with a dinner and dance at the Foresters Hall.

Members and their guests attended. Among the honored guests were past grand president of the state organization and past president of the local group, Louis B. Demattis, and past president of the Central Council Member Victor Canaves, Grand Vice Pres. Joseph Demattis.

Mrs. Angie Albertoni and Andrew Zanardi were cochairmen of the affair and were assisted by Joseph Rao, Joseph Demattis and Silvio Righello.

Forum Letter

To the Editor:
I recently attended a meeting before which appeared a person to urge one and all of us to support the Sequoia Hospital Bond Election.

Before going any farther I want to state that the bond election has my wholehearted support and I would not want anything in this letter to be taken to mean that I don't support the election and hope for the passage of the same. But during the above mentioned speaker's address to us regarding the bond election, the need for the hospital etc., he spoke of the plans for the type of construction of the building. He casually mentioned that the building would be a concrete structure faced with brick and that what stopped me. Why face the building with brick? It adds nothing to the structure and it does add a terrific amount to the cost of the structure. Any person connected with construction will tell you that the cost of brick is high, very high, and also that good brick masons are very hard to get and their wages are terrific. The only thing that I can see, to face the building with brick would be to give it an institutional look.

Of course, the bond election only calls for a million and one-half dollars for the building and one-half dollar for the brick. It is a good way to add unnecessary cost to the building and of course it is also nice and convenient to have to help cover up post and beam construction with brick. It still does not add any strength to the structure and to my way of thinking it detracts from the beauty of the structure.

Under rigid specifications as to tightness of the forms and rigid specifications as to the consistency, or slump, of the concrete mix, walls and brick facing, post and beam finish and there should be no need of covering them with brick. Of course you cannot make a good brick facing with post and beam. You have a crack in them every six inches or a foot apart wide enough to let any of the concrete mortar run out. Neither can you get a good brick facing with post and beam. You should obtain if so much water is added to the mix that it flows around in the forms like so much soup. With mortar absolutely means water tight and a mix of consistency that it must be placed with concrete vibrators or rodged into place. The result is that you obtain that results can be obtained that are unnecessary to cover up.

It seems to me that the extra cost of brick facing could be spent far better in other ways, if they need to be spent at all. Why not break the monotony of brick facing and building with porches on which patients could be moved on nice days or which could be used for patients under crowded conditions?

The building should be of simple design for simple forming all unnecessary curlicues should be eliminated. Equipment should be used for the removal of money from the bank. For DeCoste's dilemma. He had entered this country for his vacation with the allowable \$250, but when that ran out, he wrote the check on his Canadian bank.

He had sufficient balance in the bank to make the checks good, but could not get the money sent to the United States. He was in the United States and was being sent to the United States.

Spencer W. Bonham, former manager of the Burlingame Sproule-Reitz store, pleaded guilty to a charge of grand theft and asked for probation. He also will be sentenced on June 16.

Bonham admitted absconding with nearly \$2000 of his employer's money on May 19, 1945.

Harry Mitchell, 135 Hemlock Ave., pleaded guilty to a felony drunk driving charge and his trial was set for July 8 in the court of Judge Aylett R. Cotton.

Mitchell was arrested as a result of an automobile accident in which Mrs. Ruth B. Berliner of Palo Alto was injured.

Lawrence C. Aker pleaded guilty to passing second hand checks on San Mateo merchants and asked for probation. He will be sentenced June 16.

Henry J. Demsey, San Francisco, pleaded guilty to the burglary of a Lomita Park jewelry store, asked for probation, and is to be sentenced June 16 after the probation officer submits a report on his case.

J. C. Johnson, 20-year-old San Francisco warehouseman, was given three years' probation for the robbery of Austin Aimer in Colma. Johnson, one of Johnson's alleged accomplices, has pleaded not guilty and is scheduled to go on trial June 19. Willie Davidson was arrested as a result of the automobile accident in which Mrs. Ruth B. Berliner of Palo Alto was injured.

Beatrice Victoria Eate of Burlingame filed an estate totaling \$20,291.98, according to an inventory filed today in superior court by Bradford H. Melville, executor.

The estate consists of two pieces of real estate, one in Burlingame and the other in Half Moon Bay, valued at \$15,000, cash and personal property.

William L. Baum, 29, of 2495 Alameda de las Pulgas Monday filed suit against Antonio Fays Jr., 51, 174 Rutherford Ave., for \$15,920 as a result of injuries sustained in an automobile accident.

The accident involving cars driven by Baum and Fays, was on April 26 at Woodside Rd. and Oxford St., the complaint stated.

Baum suffered a fractured pelvis and other injuries.

Pleads Guilty

Tom Upton, 33-year-old literary club executive of Beverly Hills Tuesday pleaded guilty to manslaughter in the traffic death of a San Mateo girl, was fined \$1000 and put on three years' probation.

Upton's change of plea came in a surprise move in the court of Superior Judge Edmund Scott. The ex-Marine sergeant pleaded guilty after the "gross negligence" part of his charge was dropped.

The "gross negligence" would have made him eligible for a heavier sentence. It was dropped at the request of Upton's attorney, Wayne Millington, and with the concurrence of Chief Dist. Atty. A. S. Whitmore.

Upton was charged with manslaughter in the death of Jacqueline Schultz, 19-year-old San Mateo girl, on Nov. 15. She had been a passenger in a car driven by Martin Strohmaier Jr. who it collided with Upton's car on the intersection of Junipero Serra Blvd. and the Serra Extension.

Strohmaier, 20, was injured in the accident and later filed a civil suit against Upton, as did Miss Schultz's parents, Mr. and Mrs. Herman Schultz.

In out of court settlements, Upton agreed to pay the Schultzes \$10,000 and Strohmaier \$2500. He had been sued for a total of \$75,000.

Other court action late Tuesday afternoon: Three Santa Clara County men who had pleaded guilty to burglarizing the Edwards Drive-In, San Carlos, were given jail sentences by Superior Judge A. M. Rummels.

One of the men, a former employee of the drive-in and later a cook in a Palo Alto restaurant, was given three months in the county jail with credit for time served, leaving only about five weeks more to go.

His two accomplices, Harley V. Hunley and Dwight G. Arnold, each 20 years old, of Mountain View, were given six months in jail, with credit for time served, made wards of the court and put on one year's probation.

One of the men, who had engineered the burglary, according to police, had no previous record. The two younger men had a previous conviction when they were 16 years old.

Marsh had sat in his car while the others broke into the restaurant, moved a safe to the door and loaded it into the automobile. Police, who had spotted Marsh in the car and who had thrown a cordon around the place, swooped down on the trio after the safe was taken.

William D. DeCoste, 28-year-old Canadian schoolteacher, pleaded guilty to a bad check charge resulting from a "two-week" vacation which stretched into three months.

DeCoste was charged with passing a bad check for \$200 to Frank Guida, but he admitted passing it to a check totaling \$1500.

In each case, regulations governing the removal of money from the bank and the United States were violated for DeCoste's dilemma. He had entered this country for his vacation with the allowable \$250, but when that ran out, he wrote the check on his Canadian bank.

He had sufficient balance in the bank to make the checks good, but could not get the money sent to the United States. He was in the United States and was being sent to the United States.

Spencer W. Bonham, former manager of the Burlingame Sproule-Reitz store, pleaded guilty to a charge of grand theft and asked for probation. He also will be sentenced on June 16.

Bonham admitted absconding with nearly \$2000 of his employer's money on May 19, 1945.

Harry Mitchell, 135 Hemlock Ave., pleaded guilty to a felony drunk driving charge and his trial was set for July 8 in the court of Judge Aylett R. Cotton.

Mitchell was arrested as a result of an automobile accident in which Mrs. Ruth B. Berliner of Palo Alto was injured.

Lawrence C. Aker pleaded guilty to passing second hand checks on San Mateo merchants and asked for probation. He will be sentenced June 16.

Henry J. Demsey, San Francisco, pleaded guilty to the burglary of a Lomita Park jewelry store, asked for probation, and is to be sentenced June 16 after the probation officer submits a report on his case.

J. C. Johnson, 20-year-old San Francisco warehouseman, was given three years' probation for the robbery of Austin Aimer in Colma. Johnson, one of Johnson's alleged accomplices, has pleaded not guilty and is scheduled to go on trial June 19. Willie Davidson was arrested as a result of the automobile accident in which Mrs. Ruth B. Berliner of Palo Alto was injured.

Beatrice Victoria Eate of Burlingame filed an estate totaling \$20,291.98, according to an inventory filed today in superior court by Bradford H. Melville, executor.

The estate consists of two pieces of real estate, one in Burlingame and the other in Half Moon Bay, valued at \$15,000, cash and personal property.

William L. Baum, 29, of 2495 Alameda de las Pulgas Monday filed suit against Antonio Fays Jr., 51, 174 Rutherford Ave., for \$15,920 as a result of injuries sustained in an automobile accident.

The accident involving cars driven by Baum and Fays, was on April 26 at Woodside Rd. and Oxford St., the complaint stated.

Baum suffered a fractured pelvis and other injuries.

Rodeo Dance

Nightly free dancing following the fireworks was assured today as a feature of the Fourth of July rodeo and celebration to be held in Redwood City July 4-6, as a result of a meeting Tuesday of the executive committee of the Peninsula Celebration Assn.

An asphalt platform, 75x75 feet was ordered built in the center of the concessions area, Secy.-Mr. Sanford T. Ratliff reported. The platform, which will be waxed for the dancing, will also serve earlier each evening for the shows to be staged by the Harmony Club.

July 4, preceding the fireworks, a group of young entertainers will present a "Western Revue" and on Saturday night, July 5, they will stage an amateur contest. The rodeo and celebration will be held in Redwood City July 4-6, as a result of a meeting Tuesday of the executive committee of the Peninsula Celebration Assn.

The PCA also authorized the expenditure of funds for advertising the celebration in Bay region newspapers and radio stations to attract outsiders to the affair.

Highlights of the program as now planned include a pre-celebration events the annual barbecue at Flood Park on Saturday, June 21, at 6 p.m., and the Queen's Coronation Ball at West Coast Motor Hotel on Sunday, July 6, 8 p.m., opening of the celebration in Bay region newspapers and radio stations to attract outsiders to the affair.

Friday, July 4-11 a.m., parade; 12 noon, opening of games and concessions; 1:30 p.m., grand entry and presentation of the first day's rodeo; 7:30 p.m., Western Revue; 8:30 p.m., free fireworks; 9:30 p.m., dancing.

Saturday, July 5-12 noon, opening of games and concessions; 1:30 p.m., second day's rodeo performance; 7 p.m., amateur contest; 8:30 p.m., fireworks; 9:30 p.m., dancing.

Sunday, July 6-12 noon, opening of games and concessions; 1:30 p.m., rodeo; 6 p.m., closing of celebration.

The affair, the eighth annual Independence Day celebration in Redwood City, is being held this year on lower Broadway near the Bayshore Highway, where the Bayshore arena is now being erected.

"White Gang" Nabbed

David Monteverde, 30-year-old member of San Francisco's "White Gang," was arraigned Saturday before Belmont Judge Rupert Johnson on a charge of burglary.

Monteverde was arrested on a \$10,000 bond. Monteverde surrendered Thursday at the sheriff's office after a warrant had been issued charging him with the theft of two saddles, four bridles and two wrist watches from the home of James Lawson, 540 S. Rd. The stolen materials were valued at \$500.

He has denied burglarizing Lawson's home.

The San Francisco man's picture is included on the chart of the "White Gang," which sporadically harasses police in San Francisco's Mission District.

Monteverde, who gave his occupation as a process server for a San Francisco attorney, had been arrested in San Francisco for the theft of a fur coat during a burglary but was acquitted in court.

Officers for the previous two days had been questioning him in relation with a series of jewel burglaries in Hillsborough and San Francisco, but Monteverde has denied each.

Pair Injured

A San Francisco woman and her 12-year-old son were injured Friday night when a car in which they were riding crashed into a bank on La Honda Rd. about 500 feet west of the Portola Rd. intersection.

Mrs. Viola D. Bergin, 50, suffered possible fractured ribs and cuts about the knees, and her son, William, sustained concussion. Both were in Community Hospital Saturday.

James B. Bergin, 20, told California Highway Patrol officers that while he was going around a curve his wheels hit loose gravel and the car started to skid. He feared that the car would go down into a ravine, Bergin said he cut the wheels and raced the engine.

The car crossed the road and hit the bank on the other side. CHP officers reported that despite the holiday, traffic was light last night and no accidents were reported. Inclement weather was credited for the lack of highway travel.

Car Stolen

Discriminating burglars were revealed Saturday as the men who abandoned a stolen automobile in Redwood City. Before leaving the vehicle they made off with a supply of Scotch and bourbon whiskey they had stolen from an Orinda home, and left a bottle of sherry wine and a bottle of apple brandy.

Thursday, Police Officer A. C. Hoffman found the abandoned sedan on Bayshore Hwy. near Main St. Yesterday the police department learned it had been stolen from L. D. Sloan, 4911 Hubert St., Richmond.

The guard at an Alameda County Chevrolet plant came to Redwood City yesterday, identifying his car, but saying that the two bottles, some costume jewelry and an Underwood portable typewriter were not his.

A check with Contra Costa County sheriff's deputies revealed the articles were part of the loot taken from an Orinda home Wednesday. All the items taken were in the car except the Scotch and bourbon.

Files Suit

William L. Baum, 29, of 2495 Alameda de las Pulgas Monday filed suit against Antonio Fays Jr., 51, 174 Rutherford Ave., for \$15,920 as a result of injuries sustained in an automobile accident.

The accident involving cars driven by Baum and Fays, was on April 26 at Woodside Rd. and Oxford St., the complaint stated.

Baum suffered a fractured pelvis and other injuries.

Flower Disease

A mysterious blight which has been menacing the county's chrysanthemum crop has been traced to surplus army cloth, Agricultural Comar, Max Leonard announced Wednesday.

His office was called to investigate the "disease" Tuesday, Leonard said. His deputy, Ian J. Campbell, made the trip to one of the growers and found the leaves of the young plant spotted.

Upon checking the black cloth which is used to cover the young plants during the daytime, Campbell found it fireproof.

Leonard said that the chemical used for fireproofing the cloth is soluble in water, and that the recent rains evidently washed the chemical down on the plants.

The chemical is ammonium sulphate, used in weed killing, Leonard declared.

He said that many of the growers have bought the cloth at a surplus army sale and were warned to wash the chemical out before using it.

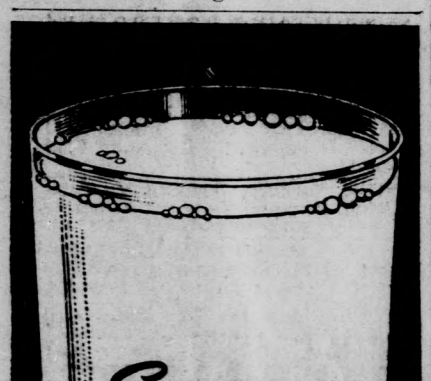

Since it is early in the year, the crops were not seriously damaged, he declared, but added that if it had happened later, the damage may have been as high as 50 per cent.

Last year 195 acres of chrysanthemums were planted and sold for a total of \$841,000.

Driver Injured

Robert Kenyon, 31-year-old San Francisco truck driver, sustained back injuries and lacerations of the scalp about 1 a.m. Wednesday when his truck overturned on Skyline Blvd. south of the Sharp Park road intersection.

The California Highway Patrol reported that Kenyon lost control of the truck on a curve, and that it rolled over two and a half times. Kenyon was taken by a passing motorist to Park Emergency Hospital in San Francisco and released later this morning.

Everyone needs MILK Every Day!

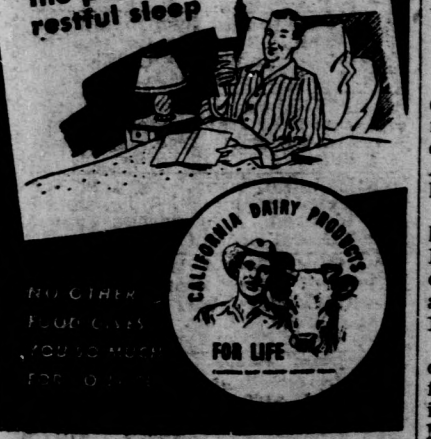

Doctors agree that no other food is so important as milk for lifelong health. Milk offers an abundance of the vitamins, minerals, proteins, carbohydrates and other essentials to normal growth in children, teen-age vitality and endurance, and radiant health in adults. No one ever outgrows the need for milk—the biggest two pounds of food value you can buy!

Garden

As predicted, many novel garden gadgets have been introduced since the war. One of the most interesting and useful is a root feeder manufactured by the Ross Daniels laboratory. It connects on the garden hose and the water goes by a cartridge of nutrients which feeds the water stream for a half hour.

The stream (with nutrients) goes down a long, hollow spike and is forced into the soil through holes in the spike near the end of the spike.

It's one of those inventions so simple that you think, "Now why didn't I think of that?" You can introduce water and nutrient solution at a depth of 18 inches, or you can push the spike in at an angle and feed, for example, the roots of a lawn at the eight-inch level. I imagine you can examine this gadget at your regular garden supply dealer.

"I haven't written you for a couple of years, but I've never failed to read your column daily," Mrs. Paul L. Tate of Berkeley says. "So many garden folks write you about insect pests that it reminds me of the time when that was my chief garden worry, too."

"But thank goodness, no more. You see, so long as I had to fight them, I determined I would make a game of it and let them do the worrying and I get the sport out of it."

"I have my weapons (spray guns, etc.) always filled and handy and take the same sporting interest in hunting them as any sportsman does in hunting game with a gun!"

"So it's no longer a task, but a pleasure, and I find 'game' has become mighty scarce around my garden at Fantasia."

"I was especially pleased at your recent list of All-America Roses. I had previously tried in vain to get the names and proper dates of all of them, and then you printed just what I wanted. You see, I want to get them all some day, as I now have one of every year except 1940 and '43."

"And of course it's pure unadulterated prejudice you'll say, but I have better bushes carrying better roses of the Peace, Rubaiyat and Armstrong than I saw at the exhibit at Fantasia."

"That's the spirit. I like to see a person take pride in what the home garden produces."

"And that idea of taking pest control in the same light as hunting is a good one. Come to think of it, there's considerable work connected to hunting deer, bear, ducks, etc. Have you ever risen in the dark of night when it's colder than Billy-bee-dee, driven miles and miles to some forsaken spot? Loaded things into a damp boat, rowed out to a blind and assumed a frozen attitude for an interminable on until dawn broke? Waited around until some 'game' ducks settled near the decoys so you could ambush 'em?"

"Sure it's an outing, and you're roughing it, and at least you're proving yourself a real he-man, and there's no gently nagging voice for miles. But to a man from Mars, who didn't know it was sure-fire and traditional sport, duck hunting would look more like work than fun."

"And when you bag that deer, yours is the fun of manfully hunting it atop your shoulders and sweating up and down mountains until you have the trophy back to the car. But unless you knew it was fun, I mean if you couldn't stand off and dispassionately analyze yourself, would you grade yourself as really smart?"

"Of course such a record of exercise gives you a conversational lead for many a day. Swell! Have at it. But if you can take that view of hunting, it should be easy for you to think of those chewing and sucking pests in the garden as 'game' too. They're plenty tricky enough, and hard to get, to qualify as game. What's more, they're attacking you. You don't have to go after them—they're not afraid of you, and they're at your doorstep."

"You can't find much other fear, less, charging, attacking game in this country without first financing expeditions with guides and heavy expense... except in your own backyard."

"Thank Mrs. Paul L. Tate, if this gives you a new viewpoint."

By ROLLY LANGLEY

The need for a general hospital in or adjacent to Redwood City, the county seat, has been obvious for years. Now, with this area of the Peninsula one of the fastest growing sections of the United States, the need is imperative. Work must be done, and it is, to make the first emergency case whose life is saved by having a hospital close at hand. And one that you can get into because it is your own district hospital!

We are making this appeal because the Redwood City Commuters Club as a body has endorsed the hospital project. Because many individual commuters have worked hard for it. Notable among them is former Councilman Chester Armstrong who literally worked himself sick on his and other civic projects and who would now be in such a hospital were he not available. As it is, Chester has been confined to his home for the past six weeks. President W. J. McKeehan and many other commuters have given generously of their time for this worthy project.

So all you good people go to the polls Friday and vote YES on the hospital bond proposition. Polls are from 7 a.m. to 7 p.m., but you go to work — so you won't forget. Don't take it for granted there is no opposition. The reactionaries always vote. So, if you want this hospital, get out and vote for it!

The eighth annual installation dinner-dance of the Redwood City Commuters Club, held last Thursday evening at Woodside's Elmer Inn, was voted a success despite the lousiness of the program by the toastmaster who was none other than the conductor of this alleged column. In our own defense, we were drafted, shanghaied and pushed into the spot with a gun in our ribs, without a minute's warning and no preparation.

Had it not been for some truly great M.C.'s and raconteurs like Bill Curran, Tom Cutting and Harrison Call, who carried us most of the way, we would have looked pretty sorry. As it was, we barely got the officers installed; and then we closed the meeting without calling on any of them for a few pearls of wisdom. Partly out of charity and partly due to the lateness of the hour. No one was listening to us, although we showed ourselves hoarse, so we figured no one would listen to them.

But here's the slate of new officers and directors, and a mighty fine group it is. Every last one a gentleman, despite his commuter affiliation. The new and eighth president of the Commuters Club is Paul Allen, an insurance broker in San Carlos; vice president, George Raubinger, secretary, Norman Meyers; treasurer, Fred Jaeger; sergeant-at-arms, Frank Hull and Jack Werner. New directors installed were W. J. McKeehan, retiring president, Dr. Ed Boyd, Col. Harry Day, M. L. Brockway, Sanford DeBrow, Herb Nelson and Cecil Campbell.

Approximately 120 persons were in attendance, with many of the "old-timers" absent. Among the latter were two past presidents and their ladies, Elmer and Flo Ross and Clarence and Gertrude Brize. All other past prexyes, except Wrex Cruse, the founder, now living in Honolulu, were present. These included (with their ladies) Bill Curran, Caboose, Stan Perkins, and McKeehan. The food, service and music were excellent; but the acoustics, like the emcee, were lousy. (All next day we kept thinking of clever things we might have said.)

To Fire Chief Joe Lodi: When will the hazardous vacant lots be burned off? ... The one next to us is a real menace. We know. We accidentally set it afire one Summer and nearly burned down our next door neighbor. ... Judge Edmund Scott has been elected chairman of the board of directors of the Catholic Social Service of San Mateo County, a Community Chest agency. The good judge is never too busy to espouse a worthy cause. ... Jack McDowell, able columnist on a San Francisco newspaper, mentioned our misadventure with the blackbirds in his column "Memo from Mac," and told us privately he is a regular reader of the Call column. Which makes a known total of 13 readers to date.

It's an old family custom at our house to select some subject during dinner and then ask the children questions about it. We try to make them both entertaining and educational. A week ago we posed this question on transportation and so far no one in the family has been able to answer it. Try your wits on it: "Under what circumstances can a person ride in two different directions at the same time?"

This is not a trick question. It is 100 per cent practical, in everyday use. You must ride, not walk, both ways, in commercial vehicles, and for some substantial distances. In our coin collection we have a duplicate new Booker T. Washington memorial half dollar. For the first correct answer we will give this memorial half dollar. Answer, winner, if any, next week!

News of Commuters

By JOE CABOOSE
(Always on the Train)

Next Friday, June 6, will be a day of destiny for residents of this and adjacent communities. On that day at the polls we shall decide an issue of vital importance not only to those of us now living but to generations yet unborn. We shall decide either to keep pace with the joint communities' spirit and material needs by voting approval of the Sequoia District Hospital bond issue; or, rejecting it, aser setting the district back 50 years.

The need for a general hospital in or adjacent to Redwood City, the county seat, has been obvious for years. Now, with this area of the Peninsula one of the fastest growing sections of the United States, the need is imperative. Work must be done, and it is, to make the first emergency case whose life is saved by having a hospital close at hand. And one that you can get into because it is your own district hospital!

We are making this appeal because the Redwood City Commuters Club as a body has endorsed the hospital project. Because many individual commuters have worked hard for it. Notable among them is former Councilman Chester Armstrong who literally worked himself sick on his and other civic projects and who would now be in such a hospital were he not available. As it is, Chester has been confined to his home for the past six weeks. President W. J. McKeehan and many other commuters have given generously of their time for this worthy project.

So all you good people go to the polls Friday and vote YES on the hospital bond proposition. Polls are from 7 a.m. to 7 p.m., but you go to work — so you won't forget. Don't take it for granted there is no opposition. The reactionaries always vote. So, if you want this hospital, get out and vote for it!

Judge Edmund Scott has been elected chairman of the board of directors of the Catholic Social Service of San Mateo County, a Community Chest agency. The good judge is never too busy to espouse a worthy cause. ... Jack McDowell, able columnist on a San Francisco newspaper, mentioned our misadventure with the blackbirds in his column "Memo from Mac," and told us privately he is a regular reader of the Call column. Which makes a known total of 13 readers to date.

It's an old family custom at our house to select some subject during dinner and then ask the children questions about it. We try to make them both entertaining and educational. A week ago we posed this question on transportation and so far no one in the family has been able to answer it. Try your wits on it: "Under what circumstances can a person ride in two different directions at the same time?"

This is not a trick question. It is 100 per cent practical, in everyday use. You must ride, not walk, both ways, in commercial vehicles, and for some substantial distances. In our coin collection we have a duplicate new Booker T. Washington memorial half dollar. For the first correct answer we will give this memorial half dollar. Answer, winner, if any, next week!

By ROLLY LANGLEY

The need for a general hospital in or adjacent to Redwood City, the county seat, has been obvious for years. Now, with this area of the Peninsula one of the fastest growing sections of the United States, the need is imperative. Work must be done, and it is, to make the first emergency case whose life is saved by having a hospital close at hand. And one that you can get into because it is your own district hospital!

We are making this appeal because the Redwood City Commuters Club as a body has endorsed the hospital project. Because many individual commuters have worked hard for it. Notable among them is former Councilman Chester Armstrong who literally worked himself sick on his and other civic projects and who would now be in such a hospital were he not available. As it is, Chester has been confined to his home for the past six weeks. President W. J. McKeehan and many other commuters have given generously of their time for this worthy project.

So all you good people go to the polls Friday and vote YES on the hospital bond proposition. Polls are from 7 a.m. to 7 p.m., but you go to work — so you won't forget. Don't take it for granted there is no opposition. The reactionaries always vote. So, if you want this hospital, get out and vote for it!

The eighth annual installation dinner-dance of the Redwood City Commuters Club, held last Thursday evening at Woodside's Elmer Inn, was voted a success despite the lousiness of the program by the toastmaster who was none other than the conductor of this alleged column. In our own defense, we were drafted, shanghaied and pushed into the spot with a gun in our ribs, without a minute's warning and no preparation.

Had it not been for some truly great M.C.'s and raconteurs like Bill Curran, Tom Cutting and Harrison Call, who carried us most of the way, we would have looked pretty sorry. As it was, we barely got the officers installed; and then we closed the meeting without calling on any of them for a few pearls of wisdom. Partly out of charity and partly due to the lateness of the hour. No one was listening to us, although we showed ourselves hoarse, so we figured no one would listen to them.

But here's the slate of new officers and directors, and a mighty fine group it is. Every last one a gentleman, despite his commuter affiliation. The new and eighth president of the Commuters Club is Paul Allen, an insurance broker in San Carlos; vice president, George Raubinger, secretary, Norman Meyers; treasurer, Fred Jaeger; sergeant-at-arms, Frank Hull and Jack Werner. New directors installed were W. J. McKeehan, retiring president, Dr. Ed Boyd, Col. Harry Day, M. L. Brockway, Sanford DeBrow, Herb Nelson and Cecil Campbell.

Approximately 120 persons were in attendance, with many of the "old-timers" absent. Among the latter were two past presidents and their ladies, Elmer and Flo Ross and Clarence and Gertrude Brize. All other past prexyes, except Wrex Cruse, the founder, now living in Honolulu, were present. These included (with their ladies) Bill Curran, Caboose, Stan Perkins, and McKeehan. The food, service and music were excellent; but the acoustics, like the emcee, were lousy. (All next day we kept thinking of clever things we might have said.)

To Fire Chief Joe Lodi: When will the hazardous vacant lots be burned off? ... The one next to us is a real menace. We know. We accidentally set it afire one Summer and nearly burned down our next door neighbor. ... Judge Edmund Scott has been elected chairman of the board of directors of the Catholic Social Service of San Mateo County, a Community Chest agency. The good judge is never too busy to espouse a worthy cause. ... Jack McDowell, able columnist on a San Francisco newspaper, mentioned our misadventure with the blackbirds in his column "Memo from Mac," and told us privately he is a regular reader of the Call column. Which makes a known total of 13 readers to date.
